

Executive Cockpit (Dashboard)

Purpose

To provide CXOs, Delivery Heads, Department Heads and Resource Owners with a single operational view of the organization by highlighting critical daily actions and weekly operational excellence metrics.

Business Objective

Management should be able to answer within **30 seconds**:

- Which projects require my attention today?
- Where do we have resource shortages?
- Which resources are becoming available?
- Are there unresolved planning conflicts?
- Are we planning accurately?
- Are employees confirming planned work?
- Which departments are performing well?
- Is organizational utilization improving?

Dependencies

- Employee Management
- Project Portfolio
- Resource Planning & Allocation
- Resource Availability Management
- Resource Utilization & Optimization
- Work Confirmation
- Project Health

Functional Requirements

A. Executive Cockpit

Sr	FR ID	Feature	Functional Requirement	Priority	Remarks
ECP-001	ECP-001	Cockpit Access	Authorized users shall access the Executive Cockpit after login according to role-based permissions.	Must	Landing Page
ECP-002	ECP-002	Role-Based View	Cockpit content shall be filtered according to the user's organizational hierarchy and permissions.	Must	
ECP-003	ECP-003	Auto Refresh	Cockpit shall display the latest approved operational data on refresh.	Must	
ECP-004	ECP-004	Navigation	Each cockpit card shall support drill-down to the relevant report or transaction screen.	Must	

B. Operational Snapshot (Daily)

Projects Requiring Attention

Sr	FR ID	Feature	Functional Requirement	Priority	Remarks
ECP-005	ECP-005	Projects Requiring Attention	Display projects currently classified as requiring management attention.	Must	Daily Card
ECP-006	ECP-006	Project Drill Down	Selecting the card shall open the Project Execution Report filtered for those projects.	Must	

Resource Shortage

Sr	FR ID	Feature	Functional Requirement	Priority	Remarks
ECP-007	ECP-007	Resource Shortage	Display projects with approved resource demand that has not yet been fulfilled.	Must	Daily Card
ECP-008	ECP-008	Resource Drill Down	Selecting the card shall display pending resource requirements.	Must	

Resources Becoming Available

Sr	FR ID	Feature	Functional Requirement	Priority	Remarks
ECP-009	ECP-009	Available Resources	Display resources becoming available within the configured planning window.	Must	Daily Card
ECP-010	ECP-010	Availability Drill Down	Selecting the card shall open the Resource Deployment Report filtered by availability.	Must	

Planning Conflicts

Sr	FR ID	Feature	Functional Requirement	Priority	Remarks
ECP-011	ECP-011	Planning Conflicts	Display unresolved planning conflicts requiring manager action.	Must	Daily Card
ECP-012	ECP-012	Conflict Drill Down	Selecting the card shall open the Planning Conflict screen.	Must	

C. Operational Excellence (Weekly)

Planning Accuracy

Sr	FR ID	Feature	Functional Requirement	Priority	Remarks
ECP-013	ECP-013	Planning Accuracy	Display organization-wide planning accuracy for the selected reporting period.	Must	Weekly Card
ECP-014	ECP-014	Trend Indicator	Display movement compared to the previous reporting period.	Must	

Work Confirmation Discipline

Sr	FR ID	Feature	Functional Requirement	Priority	Remarks
----	-------	---------	------------------------	----------	---------

ECP-015	ECP-015	Confirmation Discipline	Display organization-wide work confirmation discipline.	Must	Weekly Card
ECP-016	ECP-016	Trend Indicator	Display movement compared to the previous reporting period.	Must	

Department Health Ranking

Sr	FR ID	Feature	Functional Requirement	Priority	Remarks

D. Navigation

Sr	FR ID	Feature	Functional Requirement	Priority	Remarks
ECP-021	ECP-021	Drill Down Navigation	All cockpit cards shall support drill-down to the relevant report or operational screen.	Must	
ECP-022	ECP-022	Breadcrumb Navigation	Users shall be able to return to the Executive Cockpit after navigating to detail screens.	Should	

E. Performance

Sr	FR ID	Feature	Functional Requirement	Priority	Remarks
ECP-023	ECP-023	Load Performance	Cockpit shall load within the configured performance target under normal operating conditions.	Must	
ECP-024	ECP-024	Responsive Layout	Cockpit shall support desktop and tablet layouts.	Must	

Business Rules

BR ID	Business Rule
ECP-BR-001	Operational Snapshot cards shall always display the latest approved operational data.

ECP-BR-002	Operational Excellence cards shall use the configured weekly reporting period.
ECP-BR-003	Trend indicators shall compare the current reporting period with the immediately preceding equivalent period.
ECP-BR-004	All cockpit data shall respect role-based security and organizational hierarchy.
ECP-BR-005	Every cockpit card shall provide drill-down navigation to the underlying operational details or reports.

Exception Handling

Scenario	Expected System Behaviour
No projects require attention	Display zero with a positive status indicator rather than hiding the card.
No resource shortages exist	Display zero while keeping the card visible.
No resources are becoming available within the configured planning window	Display zero and indicate the evaluated planning window.
No planning conflicts exist	Display zero with a positive status indicator.
Weekly metrics are not yet calculated	Display "Pending Calculation" instead of zero to avoid misleading users.
User lacks permission to view detailed information	Display the summary card but restrict drill-down access according to role permissions.
