

Report 1 – Resource Deployment Report (RDR)

Purpose

To provide managers with a real-time view of resource deployment across projects, enabling quick decisions on allocation, redeployment, and upcoming resource availability.

Business Objective

Management should be able to answer:

- Where is every employee currently deployed?
- How much effort is allocated to each employee?
- Which project is the employee working on?
- When will the employee become available?
- Is the employee executing work as planned?
- Is the employee consistently confirming planned work?

Dependencies

- Employee Management
- Project Portfolio
- Work Activity
- Resource Planning & Allocation
- Resource Availability Management
- Work Confirmation

Functional Requirements

A. Report Generation

Sr	FR ID	Feature	Functional Requirement	Priority	Remarks
RDR-001	RDR-001	Report Access	Authorized users shall access the Resource Deployment Report from the Reports menu.	Must	Core
RDR-002	RDR-002	Current Snapshot	The report shall display the latest approved deployment information.	Must	
RDR-003	RDR-003	Live Data	Report shall use current approved allocation data without requiring manual refresh of underlying records.	Must	
RDR-004	RDR-004	Date Selection	Users may generate the report for Today or a selected effective period.	Should	

B. Filters

Sr	FR ID	Feature	Functional Requirement	Priority	Remarks
RDR-005	RDR-005	Department Filter	Filter report by Department.	Must	
RDR-006	RDR-006	Project Filter	Filter report by Project.	Must	
RDR-007	RDR-007	Resource Owner Filter	Filter report by Resource Owner.	Must	

RDR-008	RDR-008	Employee Filter	Search a specific employee.	Must	
RDR-009	RDR-009	Skill Filter	Filter employees by primary skill.	Should	
RDR-010	RDR-010	Status Filter	Filter by Available, Allocated, Reserved or Unavailable status.	Should	

C. Report Columns

Sr	FR ID	Feature	Functional Requirement	Priority	Remarks
RDR-011	RDR-011	Employee	Display Employee Name.	Must	
RDR-012	RDR-012	Project	Display current primary projects assignment. (One project one row)	Must	
RDR-013	RDR-013	Allocation	Display approved allocation in hours.	Must	
RDR-014	RDR-014	Available From	Display next available working date based on current planning of this project.	Must	
RDR-015	RDR-015	Planning Accuracy	Display employee planning accuracy for the selected reporting period & project.	Must	
RDR-016	RDR-016	Confirmation Discipline	Display employee work confirmation discipline for the selected reporting period.	Must	

D. Sorting & Grouping

Sr	FR ID	Feature	Functional Requirement	Priority	Remarks
RDR-017	RDR-017	Sorting	Users may sort by any displayed column.	Must	
RDR-018	RDR-018	Grouping	Users may group the report by Department, Project or Resource Owner.	Should	
RDR-019	RDR-019	Totals	Display employee count and total allocated hours for the filtered result set.	Must	

E. Drill Down

Sr	FR ID	Feature	Functional Requirement	Priority	Remarks
RDR-020	RDR-020	Employee Drill Down	Selecting an employee shall open the Employee Detail screen.	Must	
RDR-021	RDR-021	Project Drill Down	Selecting a project shall open the Project Detail screen.	Must	

F. Export

Sr	FR ID	Feature	Functional Requirement	Priority	Remarks
RDR-022	RDR-022	Excel Export	Export report to Microsoft Excel.	Must	
RDR-023	RDR-023	PDF Export	Export report to PDF.	Should	
RDR-024	RDR-024	Print	Provide printer-friendly output.	Could	

Business Rules

BR ID	Business Rule
RDR-BR-001	Only approved resource allocations shall be included in the report.
RDR-BR-002	If an employee has multiple concurrent allocations, allocation hours shall represent the sum of approved allocations, while the Project column shall display Single Project in one row with drill-down available.
RDR-BR-003	Available From shall be calculated from the employee's latest approved allocation and availability records.
RDR-BR-004	Planning Accuracy and Confirmation Discipline shall be calculated using the selected reporting period.
RDR-BR-005	Report visibility shall respect role-based access and organizational hierarchy.

Exception Handling

Scenario	Expected System Behaviour
Employee has no active allocation	Display "Unallocated" in the Project column, Allocation = 0 hours, and Available From = Current Date (subject to availability).
Employee is on an approved availability block	Available From shall reflect the end of the availability block if later than the allocation end date.
Planning Accuracy not yet calculated	Display "Not Available" instead of zero.
Confirmation Discipline not yet available	Display "Not Available" instead of zero.

Product Owner Suggestion

Instead of displaying:

Planning Accuracy	Confirmation Discipline
92%	95%

Display them as **status chips** with color coding:

- **Excellent** ($\geq 95\%$)
- **Good** (90–94%)
- **Needs Attention** (80–89%)
- **Critical** ($< 80\%$)
