

Report 2 – Resource Performance

Purpose

To provide management with a consolidated view of individual resource performance by measuring planning adherence, work execution discipline, utilization, billable contribution, and remaining available capacity.

Business Objective

Management should be able to answer:

- Is the employee working according to plan?
- Is the employee regularly confirming planned work?
- How effectively is the employee utilized?
- What percentage of the employee's effort is billable?
- What percentage of effort is non-billable?
- How much deployable capacity still remains?

Dependencies

- Employee Management
- Resource Planning & Allocation
- Work Activity
- Work Confirmation
- Resource Utilization & Optimization
- Resource Availability Management

Functional Requirements

A. Report Generation

Sr	FR ID	Feature	Functional Requirement	Priority	Remarks
RPR-001	RPR-001	Report Access	Authorized users shall access the Resource Performance Report from the Reports menu.	Must	Core
RPR-002	RPR-002	Reporting Period	Users shall generate the report for a selected reporting period (Week, Month or Custom).	Must	
RPR-003	RPR-003	Latest Calculations	The report shall display the latest approved operational metrics for the selected period.	Must	
RPR-004	RPR-004	Period Comparison	Users may compare the current reporting period with the immediately preceding period.	Should	

B. Filters

Sr	FR ID	Feature	Functional Requirement	Priority	Remarks
RPR-005	RPR-005	Department Filter	Filter report by Department.	Must	
RPR-006	RPR-006	Resource Owner Filter	Filter report by Resource Owner.	Must	
RPR-007	RPR-007	Employee Filter	Search a specific employee.	Must	

RPR-008	RPR-008	Skill Filter	Filter employees by primary skill.	Should	
RPR-009	RPR-009	Employment Status	Filter by Active or Inactive employees.	Should	

C. Report Columns

Sr	FR ID	Feature	Functional Requirement	Priority	Remarks
RPR-010	RPR-010	Employee	Display Employee Name.	Must	
RPR-011	RPR-011	Planning Accuracy (%)	Display planning accuracy for the selected reporting period.	Must	
RPR-012	RPR-012	Confirmation Discipline (%)	Display work confirmation discipline for the selected reporting period.	Must	
RPR-013	RPR-013	Utilization (Hrs)	Display total utilized hours for the selected reporting period.	Must	
RPR-014	RPR-014	Billable (%)	Display billable utilization percentage.	Must	
RPR-015	RPR-015	Non-Billable (%)	Display non-billable utilization percentage.	Must	
RPR-016	RPR-016	Available Capacity (Hrs)	Display remaining available capacity in hours.	Must	

D. Sorting & Ranking

Sr	FR ID	Feature	Functional Requirement	Priority	Remarks
RPR-017	RPR-017	Sorting	Users may sort the report by any displayed column.	Must	
RPR-018	RPR-018	Top Performers	Users may rank resources by Planning Accuracy, Confirmation Discipline or Billable %.	Should	
RPR-019	RPR-019	Bottom Performers	Users may identify resources requiring management attention.	Should	

E. Drill Down

Sr	FR ID	Feature	Functional Requirement	Priority	Remarks
RPR-020	RPR-020	Employee Drill Down	Selecting an employee shall open the Employee Detail screen.	Must	
RPR-021	RPR-021	Performance History	Users may drill down to the employee's historical operational metrics.	Should	

F. Export

Sr	FR ID	Feature	Functional Requirement	Priority	Remarks
RPR-022	RPR-022	Excel Export	Export report to Microsoft Excel.	Must	
RPR-023	RPR-023	PDF Export	Export report to PDF.	Should	
RPR-024	RPR-024	Print	Provide printer-friendly output.	Could	

Business Rules

BR ID	Business Rule
RPR-BR-001	Planning Accuracy shall be calculated using the approved planning and work confirmation data for the selected reporting period.
RPR-BR-002	Confirmation Discipline shall consider only working days & working calendar within the reporting period.
RPR-BR-003	Utilization shall be measured in hours using approved activity records.
RPR-BR-004	Billable % and Non-Billable % shall be calculated using activity classifications configured in the Work Activity master.
RPR-BR-005	Available Capacity shall be derived after considering approved allocations and approved availability blocks.
RPR-BR-006	Users shall view only resources within their authorized organizational hierarchy.

Exception Handling

Scenario	Expected System Behaviour
Employee has no recorded utilization during the reporting period	Display Utilization = 0 hours and Available Capacity equal to the employee's working capacity for the selected period.
No work confirmations exist for the reporting period	Display Confirmation Discipline as "Not Available" instead of zero.
Planning Accuracy has not yet been calculated	Display "Not Available" instead of zero.
Employee performed only non-billable activities	Display Billable % = 0 and Non-Billable % = 100.
Employee has approved leave covering the full reporting period	Available Capacity and Utilization shall reflect the approved availability records.
